Angata

roman regular

Angata is an attempt to square the circle, or rather to semi-serif the sans. Its shapes are stretched over a conceptual frame: semi-serifs, large x-height, open squarish counters, proportional letters, sharp stroke modulation. To counter-balance the semi-serifs, its axis is somewhat off-kilter, keeping the reader alert. Thanks to its lack of true vertical and horizontal lines, Angata has a rough look, somewhere between handmade and home-made. Like a good linen suit, it's guaranteed to wrinkle and look jagged on screen.

Angata

roman italic

Angata remains ultra-legible in italic and bold, making the family particularly effective for all forms of written civil disobedience: banner, slogan, tract, manifesto, etc. It is also perfectly suitable for general literary purposes. It's designed negative space mobilises individual letters into collective action; the typographic equivalent to setting your text to a marching tune. Angata attempts to combine a contemporary look with familiar features, traditionally associated with comfortable reading. Angata means forward or "let's go" in Bambara, putting text in motion and galvanising readers.

C'est l'espoir qui donne du sens à la vie, dit François Jacob, et l'espoir se fonde sur la perspective de pouvoir un jour transformer le monde présent en un monde possible, qui paraît meilleur. C'était murmuré par les esclaves et les abolitionnistes alors qu'ils ouvraient une voie de lumière vers la liberté à travers la plus ténébreuse des nuits. C'était chanté par les immigrants alors qu'ils quittaient de lointains rivages, c'était l'appel des travailleurs qui s'organisaient, des femmes qui luttaient pour le droit de vote.

Η δυναμική, αλλά πάντα ειρηνική και μη βίαιη δράση αποτελεί βασικό συστατικό των εκστρατειών. Στηρίζεται στην αρχή της συντεταγμένης πολιτικής ανυπακοής. Της δυνατότητας δηλαδή όλων, να αντισταθούμε με ειρηνικά και μη βίαια μέσα, σε κάθε άδικη νομοθεσία, υποστηρίζοντας παράλληλα λύσεις που εξασφαλίζουν την προστασία των πολιτών. Η πρακτική της πολιτικής ανυπακοής έχει επανειλημμένα εφαρμοστεί -με ιστορική επιτυχία- στις προσπάθειες διαφύλαξης της ειρήνης, του αντιρατσισμού, των ανθρώπινων δικαιωμάτων.
